

# NETRUST PHILIPPINES CORPORATION

PROTECTING YOUR DATA, SECURING YOUR DIGITAL IDENTITY

## Best Practices for the Work From Home & Hybrid Enterprise

Thursday, December 10, 2020 2:00 PM Manila Time

Join us and watch a **LIVE attack** simulation.

The global pandemic is forcing global business leaders to rapidly pivot to remote work styles, and to ensure their infrastructure is able to handle the resulting massive surge in Internet activity. CIOs, CISOs, and CSOs are being challenged now more than ever to demonstrate efficiency and agility to drive positive business outcomes in the face of increasing uncertainty.

Netrust and Cloudflare invite you to attend this webinar to:

- Learn how cyber attack vectors and tactics are evolving
- Watch a live attack simulation (demo session WAF, DNS, Bot Management)
- Learn strategies for responding to these trends, with real-world case studies

Stay on for a supercharged Q&A session via Kahoot! to win a prize!

Three (3) surprise gifts will be up for grabs!  
Download Kahoot! before the webinar starts.
